

Journey To Havana

We hope you remember us
as we still remember you
the days were getting shorter
and the world showed us the cold sides
we stood together for the last time
it was hard to release

Refrain:

Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you

imagine you're still here
hangin around in our livingroom
sippin' coffee and smoking drum
talking about the latest news
but now take your rest
we will meet again

Refrain:

Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you

Bridge (Instrumental)

Refrain:

Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you
Just one last time we'll think of you

little mommy on her red bike
listened always closely
and got a good advice
she was ready all the time
for a journey to Havana (*Havana...Havana*)
journey to Havana (*Havana....Havana*)
journey to Havana
